Pump Specification:

- Pumping Fluid type: Raw water Sewage Water Treated water Saline water Other (Specify)
Other.....
- Pump Installation Application: Storm water Pumping Sewage Water pumping Sludge pumping Other (Specify)
Other.....
- Project type: New Pumping Station Refurbishment/Replacement Project
- Required Pump Flowrate: Litre/Second (LPS)
- Density of Pumping Fluid Kg/m³
- Lifting Head: M (Difference of Chute Level & Lower water level)
- Screw type: Semi-Compact (BS) Compact (CS) Civil trough (BT)
 Casted trough (SH) (*Can be Discussed with JASH*)
- Lower Bearing type: Bronze Bush Bearing Eco-Bearing
- Screw Pump Covering: Open FRP Covering
- Motor Starting type: VFD DOL Other (Specify)
Others.....
- Required Motor Voltage & Frequency:
- Installation Location: INDIA Overseas (Specify Location)
- Other Notable Specification: (Add if Any.)

If Available, Kindly Share Site Layout (Proposed Installation Location) as well.
