Govt working on law to link Aadhaar with voter ID card

ARCHIS MOHAN
New Delhi, 19 February

The Centre is working on a Bill to amend the election law to mandatorily link Aadhaar with voter identity card. The objective is to clean up electoral rolls, remove duplication, and facilitate migrant workers to vote remotely.

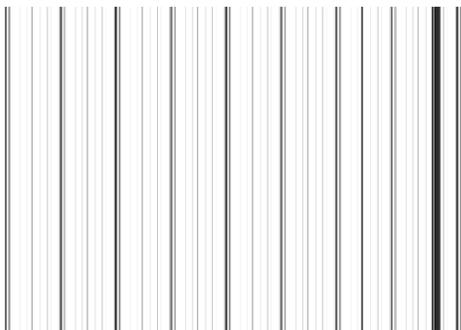

Sources in Opposition parties said the government — when the Bill is introduced and debated in Parliament — would need to allay their fears that this might become a tool to disenfranchise people.

According to sources, the Union law ministry is likely to prepare a Cabinet note soon to amend the Representation of the People Act, 1951.

The issue came up for discussion on Tuesday at a meeting between Election Commission (EC) officials and those of the Ministry of Law and Justice. The meeting was called to discuss pending electoral reforms.

Chief Election Commissioner Sunil Arora and Election Commissioners Ashok Lavasa and Sushil Chandra discussed the issue at a meeting with senior officials from the legislative department of the Ministry of Law and Justice, including Secretary Narayan Raju and Additional Secretary Rita Vashishth.

The law ministry is likely to prepare a Cabinet note soon to amend the Representation of the People Act, 1951

lect Aadhaar numbers of both existing voter card holders and new applicants.

In August, the EC had written to the law ministry that the Representation of the People Act be amended to allow it to collect Aadhaar numbers of current/new voters. It could also entail amending the Aadhaar Act to allow for sharing the unique identification number.

In 2015, the Supreme Court (SC) had restricted the use of Aadhaar, which had also halted the EC's project to link Aadhaar numbers with voters' electoral data as part of its national electoral roll purification and authentication programme.

At the time the EC abandoned the project, it had seeded 320 million voter cards with Aadhaar. The EC sent the proposal again after the SC

allowed for mandatory collection of Aadhaar last year.

At the meeting, Arora said there are more than 40 different proposals of electoral reforms which are pending and the EC is currently discussing some of these.

He suggested meetings at regular intervals between the EC and the legislative department of the ministry to "pursue all such pending proposals".

The officials also discussed the possibility of more than one qualification date in a year for becoming an elector, paid news and false affidavit as electoral offence/corrupt practice and substituting the term 'wife' with 'spouse' in Representation of the People Act to facilitate electoral registration of the spouse of women service officials in the category of service voter.

Govt doesn't acknowledge slowdown: Manmohan

ARUP ROYCHOUDHURY
New Delhi, 19 February

Former prime minister Manmohan Singh on Wednesday slammed the economic policies of his successor Narendra Modi, saying the government was not acknowledging that there was a slowdown, and that there was a need to rethink the reform process afresh to deal with the country's challenges.

"Today we have a government which does not acknowledge that there is a word as slowdown. And I feel this is not good for our economy. If you do not recognise the problems that you face, you are not likely to find credible answers to take corrective actions measures and that is the real danger," Singh said at the launch of a book authored by former planning commission deputy chairman Montek Singh Ahluwalia.

"And therefore, as Montek has also pointed out in his book, (the target of) \$5-trillion economy by 2024-25 is wishful thinking. Also, there's no reason to expect that farmers' incomes can be doubled in three year period."

Singh said while an annual gross domestic product growth of 8 per cent was achievable; it required a rethinking about the role of fiscal policy, and bolder tax reforms. "As Montek says (in the book) if you look at the real fiscal picture, the real fiscal deficit of states and Centre combined is as high as 9 per cent and that's not good for satisfying our ambition of having a dynamic economy, growing at the rate of 8-10 per cent," Singh said.

India switches to world's cleanest petrol, diesel from April 1

PRESS TRUST OF INDIA
New Delhi, 19 February

India will switch to the world's cleanest petrol and diesel from April 1 as it leapfrogs straight to Euro-VI emission compliant fuels from Euro-IV grades now — a feat achieved in just three years and not seen in any of the large economies around the globe.

India will join the select league of nations using petrol and diesel containing just 10 parts per million of sulphur as it looks to cut vehicular emissions that are said to be one of the reasons for the choking pollution in major cities.

Sanjiv Singh, chairman of Indian Oil Corp (IOC), the firm that controls roughly half of the country's fuel market, said almost all refineries began producing ultra-low sulphur BS-VI (equivalent to Euro-VI grade) petrol and diesel by the end of 2019 and oil companies have now undertaken the tedious task of replacing every drop of fuel in the country with the new one.

"We are absolutely on track for supplying BS-VI fuel from April 1. Almost all refineries have begun supplying BS-VI fuel and the same has reached storage depots across the country," he said.

From storage depots, the fuel has started travelling to petrol pumps and in the next few weeks all of them will only have BS-VI grade petrol and diesel, he said. "We are 100 per cent confident that fuel that will flow from nozzles at all the petrol pumps in the country on April 1 will be BS-VI emission compliant fuel." India adopted Euro-III equivalent (or Bharat Stage-III) fuel with a sulphur content of 350 ppm in 2010 and then took seven years to move to BS-IV that had a sulphur content of 50 ppm.

From BS-IV to BS-VI it took just three years.

"It was a conscious decision to leapfrog to BS-VI as first upgrading to BS-V and then shifting to BS-VI would have prolonged the journey to 4 to 6 years. Besides, oil refineries, as well as automobile manufacturers, would have had to make investments twice — first to producing BS-V grade fuel and engines and then BS-VI ones." State-owned oil refineries spent about ₹35,000 crore to upgrade plants that could produce ultra-low sulphur fuel. This investment is on top of ₹60,000 crore they spent on refinery upgrades in the previous switchovers.

BS-VI has a sulphur content of just 10 ppm and emission standards are as good as CNG. Originally, Delhi and its adjoining towns were to have BS-VI fuel supplies by April 2019 and the rest of the country was to get same supplies from April 2020. But oil marketing companies switched over to supply of BS-VI grade fuels in the national capital territory of Delhi on April 1, 2018.

The supply of BS-VI fuels was further extended to four contiguous districts of Rajasthan and eight of Uttar Pradesh in the National Capital Region (NCR) on April 1, 2019, together with the city of Agra. BS-VI grade fuels were made available in 7 districts of Haryana from October 1.
